

WATER COOLING UNIT GRA 3000 230V

Overview

WATER COOLING UNIT GRA 3000 230V

cod. 802497

This cooling unit can be used to water-cool torches of MIG-MAG (up to 500 A) and TIG (up to 250 A) welding machines. By using "closed circuit" water for the cooling, water consumption and formation of calcium, which obstructs the pipes, are avoided.

Technical data

CODE	CODE 802497	V_{1PH}	SINGLE PHASE MAINS VOLTAGE 230 V	kg	WEIGHT 18,97 kg
F	MAINS FREQUENCY 50 / 60 Hz	W_H L	DIMENSIONS 64 - 30,5 - 25,5 cm	BAR CODE	EAN CODE 800489775959 3
