PART NUMBER

0300-4686-01 Low Coolant Level Switch Kit

Spec Sheet Description

Low coolant level safety shut-off switch

Description

Provides continuous monitoring of the coolant level in the engine block. If the level falls below a pre-set level for more than 10 seconds the genset control activates a shutdown and indicates fault code 59. Operator should repair any leak and add coolant as appropriate. Please use operator's manual instructions for adding coolant.

Benefits

The genset is equipped with a recovery bottle with recommended coolant level indication gauge. The switch adds additional protection against operation with low coolant level.

Compatibility

This kit is for use with:
MDK BK/L/M/N (not with dry exhaust)
MDK BP/R/V/T/U

Kit Includes

Switch assembly, 3/4 in to 1/4 in NPT reducer bushing and instruction sheet.

Instruction Sheet

C-492
