

## Electrical System Accessories

### PART NUMBER

**0338-4016 Harness Y Adapter for Remote Dual Stations**

### Spec Sheet Description

Y adapter harness for dual remote stations

### Description

Harness consists of 2 x 8-pin watertight, Deutsch receptacles with 8 wires connected to an 8-pin watertight, Deutsch plug.

### Dimensions

8 in (203 mm) between connections.

### Benefits

Converts the control single remote to two remote connectors. Allows connection of two remote stations (only one with remote gauges) to the genset control with suitable extension harness.

### Compatibility

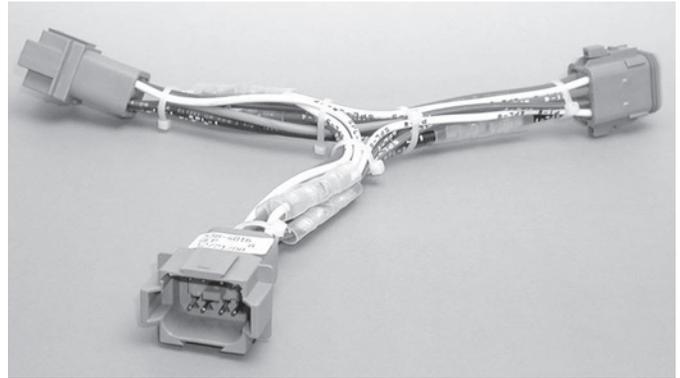

This kit is for use with all QD Series generator sets.

### Kit Includes

Harness assembly.

### Instruction Sheet

None
