

DOMETIC TL 200 Top loading refrigeration container 12 V / 230 V

Reference: 9103540405

Ice cream vans, on-line produce delivery, fresh goods from wholesalers – these cooler containers from Dometic offer safe, tailor-made, cooling solutions. Available as a front loader or top loader, each in three sizes (209 / 435 / 590 litres). Easy-to-operate slide doors, pallet feet and transport rollers (accessories) ensure comfortable handling. The optional battery set can retain the set temperature for up to 8 hours without an external power supply.

This 209-litre refrigeration and deep-freeze container was designed for safe transport of temperature-sensitive goods. It comes with two factory-preset fixed temperatures (+4 °C and -18 °C) for accurate cold chain management. The top loader design minimises cooling loss when the sliding door is opened.

Optional battery set

Up to 8 hours cooling without an external power supply

Flexible power supply

230 V AC, 12 or 24 V DC, or independent operation with optional battery set

User-friendly design

With locking and smooth-running sliding doors

Temperature switch key

Simple and safe changeover between the two factory-pre-set fixed temperatures

Reliable cold chain management

Ice cream van, online grocery delivery, purchase of fresh produce at the wholesaler's – the Dometic TL 200 is always reliable. The top loading refrigeration container gives you 209 l of storage for fresh or frozen food. It comes with two factory-preset fixed temperatures (+4 °C or -18 °C), so the mandatory cold chain is reliably maintained at all times. The top loader design makes for easy access – with minimal cooling loss when you open the sliding door. Pallet feet fitted to the underside of the container allow safe loading and unloading with a forklift.
