TF4 TORRE FARO 4x100W LED

Reference: TF4 TORRE FARO 4x100W LED

TF4 TOWER LIGHT 4x100W LED

Tower light TF4 equipped with pneumatic telescopic column in anodized aluminum SUPER PRIMO standard gray color Ø80 mm 4 extensions.

The Tower light TF4 is complete with a hand pump for the raising and manual locking on each extension to avoid the rotation of the same and to ensure the maximum extension of the column even in the absence of air inside.

The Tower light is complete with a tripod Ø80 with retractable legs to facilitate the use and transport and adjustable feet for use on uneven and rough terrain.

Lighthouse headlight 4x100W LED LZ 230V 360° mounted spotlight head - with pin, 10m cable and bracket. 60° or 90° lens available.

Kit n.3 cable grommets Ø30 mm for cable guide outside the column (on the columns go as many cable grommets as the numbers of extensions -1).
