

Victron Phoenix 24/250 VE Pure Sine Wave Inverter 400 W

Reference: PIN242510200

Victron Phoenix 24/250 VE Pure Sine Wave Inverter 400 W

Victron Phoenix 24/250VE is a sine wave inverter that ensures the operation of electrical devices up to 400W powered by a 24V battery.

The compact and lightweight design gives this inverter perfect adaptability for use in camping, on boats, in cars or in other circumstances where a portable power source is essential. The Victron Phoenix 24/250VE inverter is specially designed to be powered by a 24 V battery and offers a continuous output power of 200W. This allows it to reliably power a wide range of electrical devices, including laptops, cell phones, televisions and other similar equipment.

With a power rating of 200 watts, the Victron Phoenix 24/250VE can handle moderate loads such as refrigerators, televisions, computers, lamps and more. Thanks to its pure sine wave technology, it offers a similar form of current to that provided by the power grid, ensuring stable and efficient operation of connected devices.

The Victron Phoenix 24/250VE inverter uses pure sine wave technology, ideal for powering devices that require a stable and reliable power supply. It has numerous protection functions, including overheat, overcurrent and short-circuit protection. This means that the Victron Phoenix 24/250VE inverter can provide safe and reliable power without risk to the user or connected devices. Pure sine wave technology ensures consistent and stable current quality, ensuring reliable operation of devices powered by the Victron Phoenix 24/250VE.

In addition, the inverter features an intuitive control panel that enables easy configuration and efficient performance monitoring. It also has several connection ports for easy device connection and an automatic cooling fan to maintain an optimal operating temperature. With its reliable design and numerous protection features, the Victron Phoenix 24/250VE inverter is a versatile and safe solution for portable and mobile power needs.

Technical Specifications Victron Phoenix 24/250VE

Waveform: Pure Sine Wave
Input Voltage: 24V
AC cont. output power at 25 °C (VA): 250
Continuous power at 25 °C / 40 °C: 200 / 175 W
Maximum Power: 400 W
Voltage: 110 / 230 Vac
Frequency Output: 50 / 60 Hz
Input voltage range (V DC): 9.2 - 17
Material and Color: aluminum (blue Ral 5012)
Protection category: IP 21
Length: 260 mm
Width: 165 mm
Height: 86 mm

Weight: 2.4 kg

Technical Sheet

Frequency (Hz)	50 / 60
Protection degree	IP21
Output voltage (V)	230
Length (mm)	260
Width (mm)	165
Height (mm)	86
Input voltage (V)	24
Kind of wave	Pure Sinusoidal
Continuous power (W)	250
Colour	Blue
Weight (Kg)	2.4
