

MECC ALTE ECP34-2S/4 C-TYPE THREE PHASE ALTERNATOR 100 KVA AVR

Reference: ECP34-2S/4 C

MECC ALTE ECP34-2S/4 C-TYPE

The ECP34 C-Type range has many product features designed into the alternator.

Type C alternators make the most of power conversion to produce the maximum power to size ratio.

C-Type is now one of the easiest alternators to assemble, integrate, configure and maintain with OEM equipment.

Our goal was to provide maximum power from the smallest, lightest and most durable alternators, and the MECC ALTE designers have lavished the C-Type with much more flexibility.

The entire series is built to the most common specifications such as CEI 2-3, IEC 34-1, EN 60034-1, VDE 0530, BS 4999-5000, CAN/CSA-C22.2 No14-95- No100-95.

Technical Sheet

Phase	Single phase / Three phase
Maximum power single phase (KW)	68
Continuous power single phase (KW)	62
Continuous power single phase (KVA)	62
Maximum power three phase (KW)	88
Continuous power three phase (KW)	80
Maximum power three phase (KVA)	110
Continuous power three phase (KVA)	100
Frequency (Hz)	50 / 60
Voltage (V)	230 / 400
Engine rpm (rpm)	1500 / 1800
Poles	4
Single-phase power (KVA)	68
Three-phase power (KVA)	110

Efficiency (%)

Protection degree

IP23

Acoustic pressure

65 dB(A) at 7 m

Brushes

No

PMG

No

Type of alternator

Constant Speed

Voltage regulator

AVR

Weight (Kg)

350
