

HONDA BATTERY 36V 4AH

Reference: DP364OXA E

HONDA 36V 4AH BATTERY

HONDA 36V 4 AH universal lithium ion (Li-ion) rechargeable battery for the HONDA range of electric garden tools

Technical characteristics HONDA 36V 4Ah Battery:

Product Type: Lithium-ion rechargeable battery

Dry weight (kg) 1.3

Li-ion cell type

Power (W) 4.0Ah

Voltage (V to power supply) 36V

Recharge time (min) 35

With fast charging, the HONDA 36V 4 AH Rechargeable Lithium-Ion (Li-ion) Battery offers 100% capacity in just 35 minutes, perfect for medium-sized gardens.

The goal for Honda in the design phase was to create a battery for the cordless range that was interchangeable so that only one battery could be used for the entire cordless range. Reduced charging time and exceptional performance on every garden product in our cordless range.

Thermo-smart technology

The lithium-ion batteries that power our cordless garden products are available in three versions: 4Ah, 6Ah and 9Ah. The thermo-smart technology used for all three allows you to continuously monitor the voltage and thermal performance of each cell to maximize battery life.

Technical Sheet

Full charge time in network (h)	35 min
Battery type	Li-Ion
Battery voltage (V)	36
Battery capacity max (Ah)	4
Product type	Batteria
Weight (Kg)	1.3
