Generator rental has never been easier: choose the product you want to rent and [FILL OUT THE FORM](#).

Our specialized staff will respond immediately with the offer that best suits you!

The equipment available for rental can be shipped throughout Italy and is always ready for action: our team of technicians will always keep it in perfect working condition.

Our specialized staff will respond immediately with the most suitable offer!

It is advisable to book in advance for the rental of large quantities of machines: this is especially important in conjunction with trade fairs or events, where many people will be using the rental service.

INVERTER VOLTAGE REGULATOR

The voltage regulator with inverter technology guarantees you a constant, clean and uninterrupted power supply. In this way, thanks to the inverter voltage regulator, you will be able to connect your sensitive devices (PCs, smartphones, appliances, etc.) to your Generator Rental 1KW Eu10i safely and without burning them out.

Thanks to the sound-insulating coatings and the unique exhaust system silencer, generators are the quietest. A combination of lightweight materials and design and an ergonomic handle make this generator easy to lift and carry.

Thanks to the exclusive ECO-Throttle™ load sensing device, as the load increases, so does the RPM. This operation occurs automatically and instantaneously to keep up with demand.

Oil Alert™ technology will automatically disengage the contact if the oil is below a safe level.

A convenient 12 VDC outlet allows for charging a car battery while providing needed power for more. HONDA EU10i are an all-around energy source.

When you purchase a Honda generator you are taking advantage of the exclusive benefit of a national or commercial warranty as long as the service program is followed.
