

CUMMINS ONAN MDKDV THREE PHASE MARINE GENERATOR SET 19 KW AVR

Reference: MDKDV 3PH

Super-silenced CUMMINS ONAN MDKDV Marine Generator 19 KW AVR

CUMMINS ONAN MDKDV is a three-phase marine generator capable of delivering a power of 19 KW with a 1500 rpm motor.

The CUMMINS ONAN MDKDV marine generator is designed with a soundproof enclosure that makes it **supersilenced**. The CUMMINS ONAN MDKDV is built with a Cummins 4-stroke diesel powered engine. The alternator of the CUMMINS ONAN MDKDV is 4-pole with insulation class H and **AVR** voltage regulator.

The AVR is an electronic device that regulates the alternating current coming from the alternator and converts it into direct current.

Therefore, by means of a AVR, it is possible to convert alternating current with time-varying frequency and voltage into direct current with constant voltage and thus avoid voltage and current surges.
