DOMETIC SPX1200C COMPRESSOR AIR CONDITIONERS

The Dometic SPX1200C with its function as a 24 V stationary air conditioner, this compressor can be used with an evaporator mounted on the roof or inside the cabin. Equipped with advanced inverter compressor technology for superior refrigeration performance and reduced consumption.

The Dometic SPX1200C compressor is a key component of our new generation of split air conditioners. Equipped with advanced inverter compressor technology, they deliver incredible cooling power: 1,200 W effective (ISO 5151) and two hours of uninterrupted refrigeration. The protection against undervoltage allows to preserve the valuable battery current. Depending on the truck model used, you can combine the Dometic SPX1200C with a roof evaporator (Dometic SPX1200T) or mounted on the rear wall of the cab.

Depth: 162 mm
Height: 648 mm
Width: 367 mm
Weight: 12.6kg
