DOMETIC COOLAIR RT780 ROOF AIR CONDITIONER

DOMETIC COOLAIR RT780 is a stationary rooftop air conditioner, designed as a single unit fits all truck models. It installs quickly and requires no maintenance.

The Dometic CoolAir RT780 stationary rooftop air conditioner is designed for day trips and city distribution services. It offers drivers a pleasant climate during short breaks and unavoidable waiting times, for example during loading and unloading. As a compact air conditioner, the Dometic CoolAir RT780 integrates all its components into one housing. The Dometic CoolAir RT780 is available in two versions: with compressor inclination of 0° or 12°, to adapt to various roof shapes. Customized mounting kits are available for all common truck models so that the Dometic CoolAir RT780 can be adapted to a very wide range of vehicles.

The Dometic CoolAir RT780 stationary rooftop air conditioner, with all components housed in a single unit, fits most truck cabs. It is easy to install and requires virtually no maintenance without the need to top up the coolant. The Dometic CoolAir RT780 stationary rooftop air conditioner includes a digital control panel, remote control unit and four adjustable air vents that make it easy to achieve the ideal cab climate.

TECHNICAL FEATURES OF THE DOMETIC COOLAIR RT780 ROOF AIR CONDITIONER

Depth: 629 mm
Height: 284 mm
Width: 830 mm
Weight 22 kg
Input voltage (direct current): 24 V
Cooling capacity (ISO 5151): 820 W
Power consumption - Cooling mode (ISO 5151): 530 W
