DOMETIC PERFECTPOWER PP404 INVERTER 350W

DOMETIC PERFECTPOWER PP404 is an inverter that transforms the voltage of the 24 V vehicle battery into 230 V alternating current.

DOMETIC PERFECTPOWER PP404 is a high quality inverter, its characteristic look, top technology, numerous comfort functions: DOMETIC PERFECTPOWER inverters offer everything you can expect from a premium device. Units up to 550 watts are particularly light and compact. They transform the 12 or 24-volt battery voltage into 230-volt alternating sine wave modified sine wave, making them suitable for many different applications and many commonly used devices such as reading lamps, thermal blankets and electric shavers. Assembly is quick and easy. Adjustable fixings fit all requirements. If you want to activate the inverter conveniently from the dashboard, you can use the additional connection to an external switch.

DOMETIC PERFECTPOWER PP404 generate a modified sine wave. This means that the voltage produces a square wave similar to pure sine wave. This results in a stable output voltage for amplitude and frequency, suitable for many electrical devices. For more sensitive electronic consumers, choose a pure sine wave inverter.
