TELECO CLIMA E-VAN 5400H AIR CONDITIONER 5.800 BTU

Reference: 07040

TELECO CLIMA E-VAN 5400H AIR CONDITIONER 5.800 BTU

TELECO CLIMA E-VAN 5400H is the smallest roof air conditioner on the market, only 71cm long and 23cm high, designed especially for camper vans, it is the ideal solution to be installed on small roofs without having to remove the porthole.

The conditioner is silent, light and easy to install. It can be fixed on the roof not only through the usual hole for rooflights 40x40 cm but also through a reduced hole of 36x36 cm.
Technologically advanced, the TELECO CLIMA conditioner has been designed taking into account all the new resources to obtain an ecologically clean product.

The R32 refrigerant gas has been used, which has the lowest Global Warming Potential (GWP 675) that currently exists in mobile air conditioners, reducing the environmental pollution power by 70% compared to the gases used until now.
Two models are available with different refrigerant power and both are equipped with a heat pump. Cold, Hot and Automatic functions selectable by remote control and Timer function.

The Model TELECO CLIMA E-VAN 5400H is designed for low consumption and can also be connected to a battery through a pure sine wave inverter of at least 1500W (Regime) to be used with the vehicle in motion.
The internal diffuser small and Modern design, only about 4.2 cm thick, can be installed easily due to its small size. Equipped with blue multifunction display and led lights easy to turn on and off through the remote control.
