

HELVI ARTIK 100

Reference: 99000078

HELVI ARTIK100 Battery charger

HELVI ARTIK100 is a portable battery charger for lead accumulators equipped with ammeter, automatic thermal protection for overload and polarity reversal. HELVI ARTIK100 with quick charge/start aid "Boost" function.

perfect for charging batteries with a voltage up to 12 V and a charging current of 10-60 A with Boost start aid function.

The HELVI ARTIK100 battery charger can charge batteries for various types of vehicles such as motorbikes, cars or vans. The main applications of the HELVI ARTIK100 battery charger are in the automotive and household sector. HELVI ARTIK100 is ideal for charging small batteries.

HELVI ARTIK100 is a single-phase battery charger with 230 V power supply and 50/60 Hz frequency. HELVI ARTIK100 has a nominal power of 180 W for a maximum current of 15-100 A with Boost start aid function.

The nominal charging capacity of the HELVI ARTIK100 battery charger is 150 Ah and has 2 charging positions (min-max).

HELVI ARTIK100 is very compact and extremely light thanks to its weight of about 3 Kg equipped with a carrying handle.

Technical characteristics of the HELVI ARTIK100 battery charger:

Phase type: Single-phase

Voltage: 230 V

Frequency: 50/60 Hz

Power: 180 W

Battery voltage: 12 V

Maximum current: 15-100 A (Boost)

Charging current: 10-60 A (Boost)

Charging capacity: 150 Ah 15h

Charging positions: 2

Length: 130 mm

Width: 173 mm

Height: 240 mm

Weight: 3.3 Kg

If you are looking for another product similar to the HELVI ARTIK100 portable battery charger then we recommend you to change the whole range dedicated to battery chargers.
