

HONDA Outboard BF150AK2 XU WHITE Extra Long Shaft Counter-rotating 110.3kW

Reference: BF 150AK2 XU TOTAL WHITE

HONDA OUTBOARD BF150AK2 XU WHITE EXTRA LONG LEG

Honda BF150AK2 XU WHITE are outboard engines perfect for professional use, they are reliable, compact and lightweight complete with PGM-Fi electronic fuel injection system.

Honda BF150AK2 XU are optimized to offer more power for a wide range of different boats. The decisive, smooth power this advanced technology offers is sure to put a smile on your face as you venture out on the water.

VTEC™ is an efficient system included in the Honda BF150AK2 XU outboard that keeps fuel consumption down while delivering an exciting increase in power. In the Honda BF150AK2 XU it works by using two different cams:

- 1) When the outboard is running at low rpm, the valves are operated by a cam less aggressively ensuring low fuel consumption and excellent performance.
- 2) As the outboard speed increases to 5000 rpm, the VTEC™ hydraulically operates a cam with a higher lift profile. This keeps the valves open longer, getting more air into the combustion chamber to produce optimum power, just like in a Formula One race car.

The Honda BF150AK2 XU WHITE outboard features BLAST™ ready-to-start technology that gets the engine up to velocity in seconds. The BLAST™ (Boosted Low Speed Torque) delivers high torque even at low speeds by unleashing powerful thrust from startup.

Honda BF150AK2 XU is equipped with ECOmo's special poor-blend combustion control system ensures remarkable fuel economy right from revs and performance. Once at RPM, much less fuel is consumed. By maintaining this velocity and staying there, you get the best result. Once you reach cruising speed, ECOmo automatically and intelligently adjusts the correct air/fuel ratio for that speed.

The Honda BF150AK2 XU WHITE models are NMEA2000® compliant. There is no need to modify the wiring because everything is set up. Simply plug the engine into the CANbus network for full connectivity and control. Then the engine can be connected to other NMEA devices such as the navigation system, GPS, sonar devices, sounder and chartplotter.

HONDA BF150AK2 XU WHITE TECHNICAL FEATURES

Rated power (kW): 110.3
Rated Power (Hp): 150
Displacement: 2354 cm³
Shaft length: Extra Long
Dry weight (Kg) : 220
Starting system: Electric
Ignition system: Electronic PGM-IG
Control type: Remote
Engine trim and tilt: Electric
Transom height (mm): 635

Length (mm): 845
Width (mm): 580
Height (mm): 1790
Bore x stroke (mm): 87 x 99
Engine producer: Honda
Engine type: DOHC, 4 strokes
Cylinders: 4
Full throttle range (rpm): 5000-6000
Cooling system: Water
Battery charging capacity (A): 40
Propeller rotation: Standard

Are you looking for an outboard with different technical specifications? [Here](#) you can find the full range of Honda or other specialized brands.

The images are purely indicative.

Technical Sheet

Fuel	Gasoline
Engine	DOHC, 4 tempi
Ignition	Electronic PGM-IG
Starting system	Electric
Engine capacity (cm ³)	2354
Number cylinders	4
Cylinders' position	In line
Cooling	Water (with thermostat)
Bore x stroke (mm)	87 x 99
Reduction ratio	2.14
Rpm at full throttle (rpm)	5000 - 6000
Appearance and engine lifting	Electric
Transom height (mm)	635
Net power (kW)	110.3
Length (mm)	845
Width (mm)	580
Height (mm)	1790
Dry weight (Kg)	220
Shaft Length	X
Controls	Remote
