HONDA Outboard BF150AK2 XU SPORTY WHITE Extra Long Shaft Counter-rotating 110.3kW

Reference: BF 150AK2 XU SPORTY WHITE

HONDA OUTBOARD BF150AK2 XU SPORTY WHITE EXTRA LONG LEG

Honda BF150AK2 XU SPORTY WHITE are outboard engines perfect for professional use, they are reliable, compact and lightweight complete with PGM-Fi electronic fuel injection system.

Honda BF150AK2 XU are optimized to offer more power for a wide range of different boats. The decisive, smooth power this advanced technology offers is sure to put a smile on your face as you venture out on the water.

VTEC™ is an efficient system included in the Honda BF150AK2 XU outboard that keeps fuel consumption down while delivering an exciting increase in power. In the Honda BF150AK2 XU it works by using two different cams:
1) When the outboard is running at low rpm, the valves are operated by a cam less aggressively ensuring low fuel consumption and excellent performance.
2) As the outboard speed increases to 5000 rpm, the VTEC™ hydraulically operates a cam with a higher lift profile.

The Honda BF150AK2 XU SPORTY WHITE outboard features BLAST™ ready-to-start technology that gets the engine up to velocity in seconds. The BLAST™ (Boosted Low Speed Torque) delivers high torque even at low speeds by unleashing powerful thrust from startup.

Honda BF150AK2 XU is equipped with ECOmo's special poor-blend combustion control system ensures remarkable fuel economy right from revs and performance. Once at RPM, much less fuel is consumed. ECOmo is a poor-blend combustion control system provides significant fuel economy right through RPM and performance. Once at RPM, much less fuel is consumed. Maintaining this RPM and staying there gives the best results. Once you reach cruising speed, ECOmo automatically and intelligently adjusts the correct air/fuel ratio for that speed. Normally it comes into operation in the green zone (shown on the dial) or when the green Eco light comes on (in case you have multifunctional indicators). Therefore, once you are in the green zone, you can save up to 20% of your fuel.

The Honda BF150AK2 XU SPORTY WHITE models are NMEA2000® compliant. There is no need to modify the wiring because everything is set up. Simply plug the engine into the CANbus network for full connectivity and control. Then the engine can be connected to other NMEA devices such as the navigation system, GPS, sonar devices, sounder and chartplotter.

HONDA BF150AK2 XU SPORTY WHITE TECHNICAL FEATURES

Rated power (kW): 110.3
Rated Power (Hp): 150
Displacement: 2354 cm³
Shaft length: Extra Long
Dry weight (Kg) : 220
Starting system: Electric
Ignition system: Electronic PGM-IG
Control type: Remote

Engine trim and tilt: Electric
Transom height (mm): 635
Length (mm): 845
Width (mm): 580
Height (mm): 1790
Bore x stroke (mm): 87 x 99
Engine producer: Honda
Engine type: DOHC, 4 strokes
Cylinders: 4
Full throttle range (rpm): 5000-6000
Cooling system: Water
Battery charging capacity (A): 40
Propeller rotation: Standard

Are you looking for an outboard with different technical specifications? Here you can find the full range of Honda or other specialized brands.

The images are purely indicative.

Technical Sheet

Fuel	Gasoline
Engine	DOHC, 4 tempi
Ignition	Electronic PGM-IG
Starting system	Electric
Engine capacity (cm³)	2354
Number cylinders	4
Cylinders' position	In line
Cooling	Water (with thermostat)
Bore x stroke (mm)	87 x 99
Reduction ratio	2.14
Rpm at full throttle (rpm)	5000 - 6000
Appearance and engine lifting	Electric
Transom height (mm)	635
Net power (kW)	110.3
Length (mm)	845
Width (mm)	580
Height (mm)	1790
Dry weight (Kg)	220
Shaft Length	X
Controls	Remote
