

MOSA TF NM5.5 L-4x240 TOWER LIGHT

Reference: C00000F0

MOSA TF NM5,5 L-4x240 LED LAMP TOWER

MOSA TF NM5,5 L-4x240 is a compact and easily transportable light tower, which can effectively illuminate areas up to 2500 square meters, with low environmental impact. The MOSA TF NM5,5 L-4x240 is equipped with a 5,5-meter telescopic pole with manual lifting, two 240W LED headlights with high luminous efficiency.

Thanks to its low weight and setup on a manual towing dolly, it can be easily maneuvered by a single operator.

The MOSA TF NM5,5 L-4x240 light towers are mobile lighting units designed to ensure maximum operating reliability even in the harshest environments.

One of the most distinguishing features is the upper protection of the telescopic pole, a MOSA exclusive, which safeguards one of the most delicate points of the entire lighting tower from atmospheric agents, construction site debris, dust and leaves.

Technical Specifications MOSA TF IM5,5 Y L-4x240:

Maximum Height (L-4x240)

Maximum Height (mt.): 5.5

Rise: Manual

Lit area: 2500 m²

Lamps: LED

Lamps: 4 x 240 W

Transportability: Slow Towing Trolley

Dry Weight (Kg): 234

Min. (mm): 1430x1090x2180

Max. (mm): 1730x1570x5500

Wind stability (Km/h): 80

Pole rotation: ----

Stabilizers: 2

Autonomy (h): 44

Technical Sheet

Maximum height (m)	5.5
Type of lamps	LED
Lamps	4 x 240 W
Telescopic pole	Galvanized
Illuminated area (m ²)	2500
Total lumens (Lm)	153480
Lifting System	Manual lifting system
Stability to wind (Km/h)	80 Km/h
Brushes	No
Feed Type	Single-Phase
