GENERAC LT LINK T4 4x240W LED

Reference: LS3301T-0900EU

GENERAC LT LINK T4 4x240W LED

GENERAC LT LINK T4 is a mobile light tower that can be powered by an external power source such as a generator set, home network or another light tower with an integrated generator.

Generac LT LINK T4 can be connected in series up to 4 units to a single power source, allowing for ample illumination with very low fuel consumption. The light tower is equipped with 4 LED lamps capable of delivering a power of 240W each, thanks to which the light tower is able to illuminate a total area of 2800 square meters.

The Generac LT LINK T4 is equipped with 4 LED lamps capable of delivering a power of 240W each, thanks to which the light tower is able to illuminate a total area of 2800 square meters.

The Generac LT LINK T4 is equipped with a lifting tower capable of extending up to 7 m in height, manually operated with a practical hydraulic system. Thanks to the practical manual trolley, the light weight and the new wheel, a single operator can maneuver the Generac LT LINK quickly and safely in any kind of working area.

Generac LT LINK T4 is equipped with a lifting tower capable of extending up to 7 m in height.

Generac LT LINK T4 features opening side panels to access the tower's interior space that can be used to store documents and small equipment.

A new model of rugged, easy-to-use stabilizers to perfectly level the lighting tower in seconds.

The enclosure of the new Generac LT LINK T has been designed to better protect the control panel from rain.

TECHNICAL CHARACTERISTICS GENERAC LT LINK T4

Maximum height (mt.): 7
Rise: Manual
Lit area (m²): 2800
Maximum luminous flux (Lm): 139200
Lamps: LED
Lights: 4 x 240 W
Transportability: Wheels and Handles
Wind Stability (Km/h): 80
Stabilizers: 4
Dry Weight (Kg): 248
Pole Rotation: 340°
Voltage: 230 V
Min Dimensions. (mm): 1230 x 780 x 2110
