

CGM SUPERPOWER 6000SPA GENERATOR SINGLEPHASE 6KVA

Reference: CGM 6000SPA

CGM SUPERPOWER 6000SPE GENERATOR SINGLEPHASE 6KVA 4.8KW AVR

The single-phase 6KVA CGM SUPERPOWER 6000SPA AVR Generator is petrol-powered, equipped with electric and manual start, grid/group ATS switchboard, handles and wheels for easy transportation; like the whole CGM SUPERPOWER range, 6000SPA is a single-phase 6KVA generator that meets a high quality standard and guarantees a high level of reliability. The whole range of generators has positively passed different tests for each component of which the units and the final product itself are composed.

Automatic mains failure panel With integrated automatic transfer switch

The strong points of the single-phase 6KVA CGM SUPERPOWER 6000SPA generator are: the high quality of the components, the lightness, the compactness, the ease of use and also the modern design, equipped with a practical electric and manual start.

The CGM Superpower 6000SPA has been specially developed for camping, caravans, homes, and hobby applications, and is capable of powering a wide range of appliances.

The ATS control panel also allows the SUPERPOWER 6000SPA generator to start automatically when the power fails, making it ideal for domestic use, second homes and small businesses.

The standard equipment of the CGM Superpower 6000SPA genset is completed by a convenient hour meter, an oversized fuel tank for great autonomy and rain protection, to use it even in bad weather.

The advantages of AVR voltage regulator

The automatic voltage regulator, or AVR, allows the single-phase 6KVA CGM Superpower 6000SPA generator to deliver stable energy and thus be able to connect equipment with delicate electronics such as computers, household appliances, smartphones and tablets: the generator set is therefore ideal for use at home, camping, for hobbies and leisure, but also for construction sites and craftsmen.

The AVR voltage regulator and the high quality alternator with copper windings will provide you with safe and stabilised energy.

Technical features of the generator singlephase 6KVA CGM SUPERPOWER 6000SPE

Maximum power Singlephase: 4.8 KW

Maximum power Singlephase: 6KVA

Fuel: Petrol

Voltage: 230 V

Frequency: 50 Hz

Engine: CGM 14.0HP

Start: Manual / Electric

Consumption: 1.8 Lt/h

Length: 717 mm

Width: 545 mm

Height: 592 mm
 Weight: 69 Kg
 Automatic mains failure panel With integrated automatic transfer switch
 AVR

Technical Sheet

Phase	Single phase
Maximum power single phase (KW)	4.8
Maximum power single phase (KVA)	6
Fuel	Gasoline
Frequency (Hz)	50
Voltage (V)	230
Sockets configuration	2 x 230V
Engine	CGM 14.0HP, 4 stroke
Emissions Regulations	Stationary Use
Engine rpm (rpm)	3000
Starting system	Manual / Electric
Engine capacity (cm ³)	420
Number cylinders	1
Alternator	Copper
Fuel tank capacity (L)	25
Consumption (L/h)	1.8
Running time (h)	13.89
Acoustic pressure	70 dB(A) at 7 m
Length (mm)	717
Width (mm)	545
Height (mm)	592
Dry weight (Kg)	69
Silenced	No
Super silenced	No
Product type	Generator
ATS Switch device	ATS Included
Voltage regulator	AVR
Engine manufacturer	CGM
