

BADA TMB20 TRANSPALLET MANUALE IN ACCIAIO INOX 100% 2000KG

Reference:

BADA TMB20 TRANSPALLET MANUAL WEIGHING SYSTEM WEIGHING CAPACITY 2000 Kg

The BADA TMB20 transpallet in AISI 304 stainless steel equipped with an integrated weighing system, designed for use in humid and corrosive environments where required impeccable cleanliness and hygiene and to solve corrosion problems associated with the use of acids and saline solutions.

Thanks to its construction characteristics, and the construction entirely in **AISI 304 stainless steel**, the pallet truck can be used in the food, chemical and pharmaceutical industries.

Resistant, easy to handle and with an ergonomic design, it fully responds to the most stringent hygienic requirements as it can be sanitized with regular high pressure washing.

The weighing system consisting of 4 IP68 stainless steel load cells positioned under the forks, a compact multifunction weight indicator, practical for use by the operator and such as not to hinder the handling maneuvers. With the BADA TMB20 transpallet, for each lifted load it is possible to immediately know the relative weight, optimizing the movement and handling of the goods, thus saving time and labor.

BADA TMB20 is a pallet truck built entirely in AISI 304 stainless steel (including the lifting pump and hydraulic components), and is equipped with waterproof bearings and bushings built in polyamide material as required by the food industry.

The BADA TMB20 pallet truck can be supplied with optional accessories (at the explicit request of the customer with a surcharge) which further increase its efficiency. The customer can request:

- AISI 316 stainless steel fitting
- printer for weighing system
- frame made to measure for gripping special loads
- fork width and / or non-standard fork gauge

TECHNICAL CHARACTERISTICS BADA TMB20

Type of propulsion: Manual

Driving system: Manual

Lifting: Manual

Construction material: AISI 304 stainless steel

Capacity: 2000 Kg

Quantity of rear wheels : 1 (2 optional)

Quantity of front wheels: 2

Lifting height: 115 mm

Fork width: 180 mm
 Fork length: 1150 mm
 Turning radius : 1350 mm
 Closed upright height: 1215 mm
 Total length: 1530 mm
 Total width: 535 mm
 Dry weight: 150 Kg

Technical Sheet

Drive	Manual
Operator type	
Load capacity (Kg)	2000
Service weight (Kg)	150
Tyres: front wheels	POLY.I. / NYLON
Tyres: rear wheels	
Quantity rear wheels	2
Quantity front wheels	
Rear balancing axle	No
Lift height (mm)	115
Height of tiller in drive position max (mm)	
Height lowered (mm)	90
Overall length (mm)	1530
Overall width (mm)	535
Thickness fork (mm)	60
Width fork (mm)	180
Lenght fork (mm)	1150
Distance between fork arms (mm)	175
Turning radius (mm)	1350
Weigher	Yes
Type of lifting	Manual
