AUTOCLIMA FRESCO 5000 BACK 24V VEHICULAR AIR CONDITIONER 1600 W

Reference: 121211678.1

AUTOCLIMA FRESCO 5000 BACK 24V VEHICULAR AIR CONDITIONER 1600 W

AUTOCLIMA FRESCO 5000 BACK 24V air conditioner, perfect for installation in vehicles, to cool and dehumidify campers and caravans.

Autoclima Fresco 5000 BACK 24V is a high-quality air conditioner designed to provide maximum thermal comfort in large vehicles. This innovative system provides an effective and efficient cooling experience, ideal for applications such as tour buses, coaches and passenger vehicles.

Designed to fit a variety of applications, such as cargo vehicles, trucks, vans, and specialty vehicles. Its compact and versatile installation allows easy integration with the vehicle's electrical system, ensuring efficient use of interior space.

With a cooling capacity of 5500 BTU/h, the air conditioner can maintain a comfortable indoor temperature even on the hottest days. Equipped with a reverse cycle compressor, the Autoclima Fresco 5000 BACK 24V air conditioner offers efficient operation and precise temperature control. Thanks to the built-in digital control, the desired temperature can be set and maintained with ease. In addition, the air conditioner is equipped with a dehumidification system that helps maintain a cool, humidity-free indoor atmosphere.

The Fresco 5000 BACK 24V is designed for quiet operation and low noise during use. This ensures a quiet environment inside the vehicle, allowing passengers to enjoy their journey without disturbance.

This air conditioner is also equipped with an advanced air filtration system, which effectively captures harmful particles in the outdoor environment. This helps create a healthy and clean indoor environment, protecting the health and well-being of passengers.

Autoclima Fresco 5000 BACK 24V is equipped with an optional remote control system, making it easy to adjust system settings from a convenient location. This additional feature provides a greater level of convenience and flexibility in using the system.

TECHNICAL FEATURES AUTOCLIMA FRESCO 5000 BACK 24V

Cooling capacity: 1600 W
Input voltage: 24V
Input frequency: 50 Hz
Evaporator flow rate: 250 m3/h
Cooling airflow: 5500 BTU/h
Nozzles: 4
Compressor: Rotary
Number of speeds: 6
Refrigerant: 134a
Remote Control: Yes
