DOMETIC FRESHJET FJX7 3000 VEHICULAR AIR CONDITIONER 3000W

Reference:

DOMETIC FRESHJET FJX7 3000 VEHICULAR AIR CONDITIONER 3000W

DOMETIC FRESHJET FJX7 3000 air conditioner, perfect for installation in vehicles, is one of the smallest rooftop air conditioners for cooling and dehumidifying motorhomes and caravans up to 7 meters in length.

The Dometic FreshJet FJX7 3000 is an air conditioner for RVs and recreational vehicles that uses heat pump air conditioning technology. This particular model has a cooling output of 3000 watts and a heating output of 2500 watts, making it particularly suitable for large RVs.

The design of the Dometic FreshJet FJX7 3000 features an extremely low and unobtrusive profile, making it suitable for mounting on any recreational vehicle roof without spoiling its aesthetic appearance. Its aerodynamic shape also makes it less susceptible to wind and vibration while driving.

One of the main features of the Dometic FreshJet FJX7 3000 is its ability to run quietly, thanks to its optimized ventilation technology.

The air conditioner is able to provide even and rapid cooling, thanks to the presence of two internal fans, which ensure even distribution of cool air throughout the room. In addition, the Dometic FreshJet FJX7 3000 has a dehumidification function, which can remove moisture from the air and reduce the formation of mold and bacteria.

WARNING!

The purchase or possession of the DOMETIC DIFFUSER FJ ADB ELECTRICAL speaker is required for installation.

TECHNICAL FEATURES DOMETIC FRESHJET FJX7 3000

Cooling capacity: 3000 W
Heating capacity: 2500 W
Input voltage: 220 - 240V
Input frequency: 50 Hz
Cooling at rated current: < 7.5 A
Operating temperature range: - 2 °C ... 52 °C
Refrigerant: R32
Refrigerant quantity: 480 g
CO2 equivalent: 0.32 t
Protection class (rooftop unit): IPX4
Noise level: < 70 dB(A)
Length: 1090 mm
Width: 700 mm
