HONDA MIIMO HRM2500 LIVE LAWNMOWER ROBOT

Reference: HRM2500LIVE

HONDA MIIMO HRM2500 LIVE ROBOT MOWER

The Honda Miimo HRM2500 LIVE is a robot mower designed for small to medium-sized gardens. It has a number of features that make it an ideal choice for those who want a reliable and easy-to-use robot mower.

The HONDA Miimo HRM2500 LIVE is powered by a 21.6V battery. It is capable of cutting grass on slopes of up to 25 degrees.

The HONDA Miimo HRM2500 LIVE robot is equipped with a rain sensor that makes it return to base when it rains. It also has an obstacle sensor that makes it stop in the event of a collision.

The HONDA Miimo HRM2500 LIVE can be controlled via a smartphone app. The Honda Miimo HRM2500 LIVE app allows you to set cutting schedules, control the robot in real time and receive notifications in case of problems. Set the geofence by moving your fingers in and out to change the size of the map. The geofence area has a minimum radius of 6 m. If Honda Miimo HRM2500 LIVE leaves the geofence, the customer will receive an alert (via e-mail and push notification) within 15 minutes. Position updates every 3 minutes when the Honda Miimo HRM2500 LIVE is switched on, every 12 minutes when the Honda Miimo HRM2500 LIVE is switched off Last position informs the customer of the last time the TCU was able to send the GPS position to the app User can activate the movement points to see the Miimo's position history User can toggle between map view and satellite view

Technical Specifications Honda Miimo HRM2500 LIVE:

Garden size Up to 3000 m2 (2000)
Brushless Motor Technology
Battery Technology Integrated battery pack
Cutting height 20-60mm
Cutting height adjustment Manual
Cutting time 40
Charging time 40
Stakes in pack [N] None
Number of blades 3
Cutting deck width (mm) 220
Blade Motor Rotation Clockwise and Anti-clockwise
Docking Station Rectilinear (clockwise/counterclockwise)
Software Features 4 Wire Id
Wire overlap from 20 cm to 45 cm
Cutting start points 3
Directional cable 1
Maximum length of perimeter cable 800 metres
Perimeter cable depth 1-20cm
Bluetooth Software Update - Dr.H
Weight 11.6Kg

The HONDA Miimo HRM2500 LIVE is an ideal solution for those who want a lawnmower robot that can handle a small to medium-sized garden. It is reliable, easy to use and equipped with a range of features that make it an affordable option.

Here are some of the advantages of using a robot lawnmower:

Saving time and effort: a robot mower can cut the grass for you, freeing you from work.
Better cutting quality: a robot lawnmower can cut the grass evenly and precisely, achieving a better result than a conventional lawnmower.
Better lawn health: a robot mower cuts grass more frequently, promoting healthy lawn growth.

Looking for Honda a robotic lawnmower with different technical characteristics? HERE you can find the area dedicated to HONDA lawn mowers or other specialised brands.

Technical Sheet

Acoustic pressure	56/55 db(a)
Length (mm)	655
Width (mm)	535
Height (mm)	270
Product type	Lawnmower
Engine manufacturer	Honda
Weight (Kg)	11.6
Amplitude of work area	Up to 1000 m²
Blade type	3
Cutting width (mm)	220
Cutting height adjustment	Manuale
Waterproofness	IPX4
Pendenza massima sul perimetro del giardino	18% / 10°
Maximum slope within the garden	47%/25°
