

## GENERATOR 10 KVA SUPER SILENCED SINGLE PHASE STAGEV

Reference: GD10KVAM

### GENERATOR 10 KVA SUPERSILENCED SINGLE PHASE STAGEV

The Generator single phase is equipped with Kubota D1105 STAGEV engine with Diesel power supply, able to deliver a power of 10 KVA.

This generator is equipped with electric start, with 12 V battery and enclosure that lowers noise emissions and makes it supersilenced.

The group is equipped with a soundproof cabin, thanks to which there is a drastic reduction of noise pollution up to 70 dB recorded at a distance of 7 meters, thanks to these features the group can be considered super silenced.

The generator guarantees efficient and silent operation thanks to the Kubota D1105 engine, which can deliver a maximum power of 10KVA.

The generator includes:

- Automatic engine stop device with warning lights for:
  - battery charge failure
  - high water temperature
  - low fuel level
  - low oil pressure
- 1 single-phase EEC 230V - 32A socket
- 1 single-phase 230V socket
- 12 V battery
- Power output protections
- Differential switch
- Voltmeter
- Hour meter
- Emergency stop button
- Fork passage

### STAGEV EMISSION STANDARDS

This Generator is equipped with STAGEV "mobile" motorization, as required by the European Regulation 2016/1628. These new motorizations allow to exponentially reduce the emissions of particulate matter and nitrogen oxides delivered by the generator into the environment, and ensure a reduction in environmental impact of 200% compared to standard motorizations.
