Reference: VITRIFRIGO C95LA

### VITRIFRIGO C95LA WITH COLD-STORAGE PLATE

The VITRIFRIGO C95LA represents a significant evolution in external refrigeration. Equipped with the sophisticated Airlock closure system, it is designed with a primary focus on usability and innovative features. This system ensures a positive door closure, preventing accidental openings and offering a unique fastening profile for both full and partial flush-mount versions, providing flexibility and aesthetics to the product.

One of the most appreciated features of the VITRIFRIGO C95LA is the reversible door, allowing for a more versatile installation adaptable to various space configurations. Thanks to the precise design of the system, this functionality is quick and uncomplicated.

The integration of the "vent position" system adds another level of convenience. This allows leaving the door slightly ajar, preventing the formation of unpleasant odors inside the refrigerator during periods of non-use.

From a design perspective, the VITRIFRIGO C95LA series stands out for its elegance and minimalism. Available in Light Grey and Black tones, both with a matte finish on the door panel, it adds a touch of style to any environment. This combination of refined aesthetics and advanced functionality makes it an ideal choice for a wide range of applications, from domestic to commercial sectors.

But the qualities of the VITRIFRIGO C95LA do not stop at its exterior appearance. Its technical performance is equally impressive. With a total capacity of 95 liters and a freezer capacity of 12.8 liters, it offers ample space to store a variety of foods and beverages in an organized and accessible manner.

Furthermore, its versatility is evident in the power options. With a nominal consumption of only 45W, it can operate on 12/24Vdc power, but is also available with a dual power supply unit 12/24Vdc - 100-240Vac 50/60Hz, ensuring optimal operation in various electrical supply situations.

The VITRIFRIGO C95LA is equipped with several additional features to further enhance the user experience. The ability to customize the panel with new profiles allows adapting the refrigerator to one's own style and environment, while the high-intensity LED lighting system ensures optimal visibility inside the compartment. Additionally, the D power option provides greater flexibility in power supply.

Finally, for those who do not require a freezer compartment, the VITRIFRIGO C95LA is also available in a "fridge-only" version upon request, confirming its adaptability to the specific needs of each customer.

### Technical Specifications VITRIFRIGO C95LA:

Total capacity litres: 95  
Freezer capacity litres: 12.8  
Net weight: 24 Kg  
Power supply: 12/24Vdc (also available with bivalent 12/24Vdc - 100-240Vac 50/60Hz)  
Nominal consumption: 45W  
Total width: 485 mm.  
Total height: 792 mm.  
Total depth: 471 mm.  
Panel colour: black / grey  
Also available in "fridge only" version (without freezer compartment): yes (C95L version only)  
Reversible door: yes

Looking for a cockpit refrigerator with different technical characteristics? [Here](#) you can find the full range VITRIFRIGO or other specialized brands.

## Technical Sheet

Input power (W)	12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)
Length (mm)	471
Width (mm)	485
Height (mm)	792
Dry weight (Kg)	24
Product type	Compressor refrigerator
Colour	black / grey
Capacity of the refrigerator (L)	95
Freezer (L)	12.8
Reversible door	Yes
