VITRIFRIGO C115i FRIDGE-FREEZER

The VITRIFRIGO C115i epitomizes innovation in internal refrigeration. With its AIRLOCK series of refrigerators and freezers, this product offers a perfect blend of advanced features, refined design, and user-friendliness. At the heart of this innovation lies the new Airlock closure system, designed to simplify and enhance the overall user experience. This system offers four innovative solutions: a positive door closure to prevent accidental openings, a unique optional fastening profile for both full and partial flush-mount versions, rapid door reversibility enabling effortless customization, and an integrated "vent position" system to keep the refrigerator door slightly ajar, preventing the formation of unwanted odors. The AIRLOCK series distinguishes itself not only for its advanced functional features but also for its essential and elegant bicolor design. Available in Light Grey and Black tones, both with a matte finish on the door panel, the VITRIFRIGO C115i adds a touch of contemporary style to any environment. But the qualities of the VITRIFRIGO C115i extend beyond its exterior appearance. With a total capacity of 115 liters and a freezer capacity of 17.1 liters, it provides ample space to store a wide range of foods and beverages in an organized and accessible manner. Additionally, its compact and intelligent design makes it suitable for a variety of contexts, from domestic to commercial settings. Versatility is another key strength of the VITRIFRIGO C115i. Powered by 12/24Vdc, with the option to add a dual power supply unit 12/24Vdc - 100-240Vac 50/60Hz, this product easily adapts to different electrical supply situations. The reversible door offers flexibility in installation, allowing it to adapt to the specific needs of the available space. Furthermore, the VITRIFRIGO C115i is equipped with a range of additional features designed to further enhance the user experience. The Easy custom system allows for easier panel customization than ever before, while the new high-intensity LED lighting system ensures optimal visibility inside the compartment. Finally, for those who do not require a freezer compartment, the VITRIFRIGO C115i is also available in a "fridge-only" version upon request, confirming its adaptability to the specific needs of each customer. In summary, the VITRIFRIGO C115i is the ideal choice for those seeking an internal refrigerating unit that combines excellent performance, sophisticated design, and maximum user-friendliness.

Technical Specifications VITRIFRIGO C115i:

Total capacity litres: 115
Freezer capacity litres: 17,1
Net weight: 23 Kg
Power supply: 12/24Vdc (also available with bivalent 12/24Vdc - 100-240Vac 50/60Hz)
Nominal consumption: 45W
Total width: 525 mm.
Total height: 766 mm.

Total depth: 560 mm.

Panel colour: black / grey

Also available in "fridge only" version (without freezer compartment): yes (C115i version only)

Reversible door: yes

Technical Sheet

Input power (W)	12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)
Length (mm)	560
Width (mm)	525
Height (mm)	766
Dry weight (Kg)	23
Product type	Compressor refrigerator
Colour	black / grey
Capacity of the refrigerator (L)	115
Freezer (L)	17.1
Reversible door	Yes
