

VITRIFRIGO C30BT Freezer

Reference: VITRIFRIGO C30BT

VITRIFRIGO C30BT FREEZER

The VITRIFRIGO C30BT is a high-quality freezer with an external refrigeration unit, belonging to the AIRLOCK series by VITRIFRIGO, a leader in the freezer and refrigerator industry. The innovative closure system, known as Airlock, represents the core of this product, designed to combine advanced functionality with ease of use.

The design of the C30BT features several innovative solutions. Firstly, the positive door closure is designed to prevent accidental openings, ensuring the safety of the stored food inside. The unique fixing profile, available as an option, allows for customized installation for both total recess (door inside) and partial recess (door outside) versions. The door is reversible, allowing for quick orientation customization thanks to careful system design. Additionally, the integrated "vent position" system allows the door to be left slightly ajar to prevent the formation of unpleasant odors during periods of non-use.

The VITRIFRIGO series of refrigerators, freezers, and refrigerators stands out for its elegant and modern design, available in two color variants: Light grey, a luminous shade of pearl grey, and Black, which offers a more pronounced color contrast.

The VITRIFRIGO C30BT features the Airlock system included as standard equipment, with the option to add the optional profile for greater customization. Thanks to the new profiles, panel customization is made even simpler, allowing users to adapt the VITRIFRIGO C30BT to their own tastes and aesthetic needs.

The VITRIFRIGO C30BT is also equipped with the D power system (optional), a dual-power unit that allows for a wide range of power options, including 12/24Vdc and 100-240Vac 50/60Hz. With a total capacity of 30 liters and a net weight of 22 kg, this freezer offers reliable and versatile performance. Its compact dimensions make it ideal for a variety of applications, while its nominal power consumption of 38W ensures efficient operation.

With a total width of 525 mm, a total height of 342 mm, and a total depth of 562 mm, the VITRIFRIGO C30BT offers ample internal space with a single compartment. The reversible door adds flexibility to the design, allowing for customized installation according to user needs. Thanks to its combination of innovation, functionality, and elegant design, the VITRIFRIGO C30BT remains an excellent choice for those seeking a high-quality freezer with reliable performance.

Technical characteristics VITRIFRIGO C30BT FREEZER:

Total capacity litres: 30
Net weight: 22 Kg
Power supply: 12/24Vdc (also available with bivalent 12/24Vdc - 100-240Vac 50/60Hz)
Nominal consumption: 38W
Total width: 525 mm.
Total height: 342 mm.
Total depth: 562 mm.
Compartments: 1
Reversible door: yes

Technical Sheet

Input power (W)	12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)
Length (mm)	562
Width (mm)	525
Height (mm)	342
Dry weight (Kg)	22
Product type	Congelatore
Capacity of the refrigerator (L)	30
Compartments	1
Reversible door	Yes
