VITRIFRIGO C65D Portable Fridge-Freezers

Reference: F11660300SD

VITRIFRIGO C65D PORTABLE FRIDGE-FREEZERS

The VITRIFRIGO C65D is a portable and built-in fridge-freezer designed to meet a wide range of storage needs.
This series, available in the C65D version with digital thermostat,
offers versatility and convenience for various installations, both portable and fixed.

The benefits of portability are evident in this series VITRIFRIGO,
which features three models with different capacities to adapt to user needs.
Constructed with high-strength loaded polyethylene through rotational molding,
these fridge-freezers ensure robustness, aesthetic appeal, and efficiency, even in challenging environments.

The special refrigerators of the VITRIFRIGO C65D series allow the creation of dedicated refrigerated compartments,
offering the possibility to customize the internal space for optimal food preservation.
With options like the practical removable container or sliding opening,
they occupy limited space while maintaining good storage capacity.

The digital thermostat and LED thermostat of the VITRIFRIGO C65D ensure precise temperature control,
allowing users to easily set the optimal conditions for preserving their food and beverages.
Standard LED lighting not only reduces energy consumption but also ensures uniform illumination inside the refrigerator,
facilitating the search for stored items.

The standard handles make transporting the VITRIFRIGO C65D effortless,
while the internal basket adds an additional level of convenience for organizing stored items.
With the D power option, which offers a bivalent control unit compatible with various power sources,
these refrigerators are even more versatile and suitable for a variety of settings.

In summary, the VITRIFRIGO C65D is the ideal choice for those seeking a reliable, efficient,
and versatile fridge-freezer capable of adapting to various storage needs,
both in domestic and professional settings.

Technical Specifications VITRIFRIGO C65D:

Capacidad total litros: 65
Peso neto: 24 Kg
Alimentación: 12/24Vdc (también disponible con bivalente 12/24Vdc - 100-240Vac 50/60Hz)
Consumo nominal: 45W
Anchura total: 765 mm.
Altura total: 458 mm.
Profundidad total: 510 mm.
Rango de temperatura interna: +10°C / -20°C
