

VITRIFRIGO D30A Drawer Fridge-Freezer

Reference: VITRIFRIGO D30A

VITRIFRIGO D30A DRAWER FRIDGE-FREEZER

The VITRIFRIGO D30A is a versatile, high-quality portable fridge-freezer designed to meet the specific needs of special installations, making it ideal for a wide range of automotive applications and other customized setups. Thanks to its compact nature and intelligent design, the VITRIFRIGO D30A delivers reliable performance without sacrificing convenience. Its ability to set any desired temperature at any time makes it extremely flexible and suitable for various situations, allowing for easy transition between fridge and freezer modes as needed.

Available in black and white versions, this compact fridge-freezer features an elegant and refined finish that harmonizes with any interior environment. Equipped with advanced features such as digital thermostat control, the VITRIFRIGO D30A ensures precise temperature management and optimized compressor operation, maintaining a perfect balance between performance and energy efficiency. Additionally, reduced noise during nighttime hours ensures a quieter and more comfortable environment.

One of the distinctive features of the VITRIFRIGO D30A is its removable refrigeration unit, providing greater installation flexibility and maximizing available space inside the fridge. This not only allows for better food organization but also facilitates the installation process while ensuring optimal efficiency and soundproofing.

With a total capacity of 20 liters and a net weight of 15 kg, the VITRIFRIGO D30A operates on 12/24Vdc power with a nominal consumption of 43.5W, ensuring reliable performance and easy management. Furthermore, the new R600a natural gas compressor offers superior energy efficiency, reducing the overall environmental impact of the device and reaffirming the brand's commitment to sustainability.

The VITRIFRIGO D30A features a user-friendly interface that provides easy access to all advanced settings, offering total control over temperature and other functions. The night mode further reduces device noise during resting hours, ensuring a quieter and more comfortable environment. With its elegant and robust design and the option to choose between black or white panels, the VITRIFRIGO D30A stands out as the ideal choice for those seeking a compact, versatile, and high-quality fridge-freezer that meets the most demanding requirements in terms of performance, energy efficiency, and design. With the VITRIFRIGO D30A, you can enjoy fresh drinks and food wherever you are, with the confidence of a reliable and innovative product that puts control in your hands.
