Hyundai 65247 Diesel Silenced Generator 6.3KW

The Hyundai Generator 65247 Diesel Silenced 6.3KW is the ideal choice for those looking for a reliable and powerful genset to power their equipment anywhere.

This Hyundai diesel silenced generator is equipped with a digital control panel that provides information on voltage, frequency, current and hours of operation.

Il serbatoio hyundai e da 14,5 litri garantisce 7,5 ore di autonomia al 50% del carico.

The Hyundai 65247 Diesel Silenced 6.3KW is also equipped with a 12V socket for recharging batteries.

Hyundai's robust and compact design makes it easy to transport and store.

The Hyundai 65247 Diesel Silenced 6.3KW is equipped with a digital control panel that provides real-time information on:

Voltage (V): The voltage delivered by the generator.

Current (A): The current delivered by the generator.

Power (kW): The power output of the generator.

Frequency (Hz): The frequency of the current supplied by the generator.

Hours of operation (h): The total number of hours the generator has been running.

Hyundai **Copper winding:**

The generator alternator is equipped with a 100% copper winding. This offers the following advantages:

Reliability: The copper winding is more resistant to heat and wear than other types of winding,

guaranteeing a longer service life.

Better sine wave quality: The copper winding produces a cleaner sine wave,

which is more compatible with sensitive electronic equipment.

Efficiency: Copper winding is more efficient than other types of winding,
