VITRIFRIGO Quick Coupler

Reference: R490.01

VITRIFRIGO QUICK CONNECTORS (M+F)

The Vitrifrigo Quick Connectors are accessories designed to facilitate the installation of refrigerating units.
These connectors allow for the connection and disconnection of the refrigerating unit
from the fridge cabinet without refrigerant loss. Available upon request,
they provide a quicker and more efficient installation, ensuring optimal operation of the refrigeration system.
Thanks to this practical and reliable solution, installation times can be reduced,
and overall efficiency of the refrigerator device can be improved.

Are you looking for a chest refrigerator with different technical features? Here you can find the entire range of VITRIFRIGO or other specialized brands.

The images and technical data are not binding and may be subject to revisions by the manufacturer.
