

BM2 SUPER 20015 High Pressure Washer 200 bar

Reference: 01SP03

BM2 SUPER 20015 HIGH PRESSURE WASHER 200 BAR

The BM2 SUPER 20015 High Pressure Washer is an innovative and powerful solution for high-pressure cleaning, designed to deliver excellent performance across a wide range of applications. Equipped with cutting-edge technology and advanced features, this pressure washer is the ideal choice for those seeking reliability, efficiency, and durability.

The BM2 SUPER 20015 is equipped with ceramic piston pumps and a brass head, ensuring strength and durability over time. The motor operates at 1450 rpm, ensuring optimal performance and smooth operation. The motor/pump coupling protection with a special lubricant containment system ensures greater durability and reliability.

This device offers advanced control with delayed shutdown thanks to the ACDS system, a distinctive feature of the BM2 SUPER 20015, which also allows connection to a diagnostic reader for detailed performance monitoring. The pressure regulation valve ensures uniform power distribution, while boiler pre-ventilation and motor thermal protection ensure safe and efficient operation.

The BM2 SUPER 20015 is equipped with numerous practical features, including a high-pressure detergent dispenser, a float valve-fed water tank, and an externally-inspectable water filter. The boiler with over 89% efficiency ensures rapid and uniform water heating, while the adjustable anti-limescale system guarantees optimal performance in every situation.

For greater ease of use, the BM2 SUPER 20015 pressure washer is equipped with two free wheels and two swivel wheels with brakes, allowing easy maneuverability even in tight spaces. The machine's usage time storage and LED notifications for scheduled maintenance ensure efficient and trouble-free operation over time.

With high-level technical specifications, the BM2 SUPER 20015 offers impressive performance: with a maximum pressure of 200 bar (20 Mpa) and a maximum flow rate of 900 Lt./h, it can tackle even the toughest cleaning challenges. The 35-liter tank and 3-liter detergent tank ensure optimal autonomy during cleaning operations.

With compact dimensions and a weight of 144 kg, this pressure washer is easy to transport and position, ensuring flexibility and versatility in any environment. Thanks to its robust construction and advanced safety features, the BM2 SUPER 20015 is the ideal choice for professionals

and enthusiasts seeking high performance and reliability in every cleaning situation.

Technical Features BM2 SUPER 20015:

Phase type: Three-phase
Supply voltage: 400 V
Frequency: 50 Hz
Maximum pressure: 200 bar - 20 Mpa - 2900 psi
Maximum flow rate: 900 Lt./h
Pump: IP 47
Shutoff System: ACDS
Pump rotation: 1450 rpm
Maximum power consumption: 7.2 KW
Power supply: 400 V - 3ph - 50 Hz
Maximum temperature: 140 °C
Tank capacity: 35 lt
Detergent tank capacity: 3 lt
Length: 956 mm
Width: 610 mm
Height: 940 mm
Weight: 144 Kg.

Technical Sheet

Phase	Three phase
Fuel	Diesel
Frequency (Hz)	50
Voltage (V)	400
Pump type	IP 47
Maximum output capacity (Lt/min)	900
Tank capacity (L)	35
Transportability	Wheels and handles
Length (mm)	956
Width (mm)	610
Height (mm)	940
Dry weight (Kg)	144
Feed Type	400V - 3ph - 50Hz

maximum water temperature (°C)	140
Maximum input power (KW)	7.2
Pump rotation (rpm)	1450
Maximum pressure (bar-MPa-psi)	200 - 20 - 2900
Stop system	ACDS
Detergent tank	3
