BM2 STX 14010 HIGH PRESSURE WASHER 140 BAR

The BM2 STX 14010 High Pressure Washer 140 bar represents excellence in the field of high-pressure cleaning equipment. With its robust design and advanced technical features, this pressure washer stands out in the industry for its reliability, efficiency, and durability.

At the heart of this machine, we find the BM2 STX 14010 140 bar pumps, renowned for their quality and superior performance. Equipped with ceramic pistons and a brass head, these pumps ensure a constant and powerful flow, ideal for tackling even the most demanding cleaning tasks. Thanks to their innovative design, the BM2 STX 14010 Pressure Washer pumps offer high efficiency and require minimal maintenance, ensuring optimal performance in the long term.

The 1450 rpm motor ensures constant power and extended durability, while the AISI 430 stainless steel cover protects the entire structure from corrosion and atmospheric agents, guaranteeing long-lasting performance even in adverse environmental conditions.

With a motor/pump coupling protection system, the BM2 STX 14010 140 bar offers additional safety, ensuring reliable operation in any situation. The pressure regulation valve allows for easy adjustment of the delivery power to specific cleaning needs, while the ability to deliver high-pressure detergent ensures impeccable results on any surface.

The integrated boiler, with a performance exceeding 89%, ensures effective removal of dirt even in the most stubborn conditions. Thanks to pre-ventilation and leakage control, this pressure washer ensures safe and efficient use, minimizing energy and water consumption.

The ergonomic design, with front bumper-handle and free-spinning, swivel wheels, makes the BM2 STX 14010 easy to maneuver in any environment, while the motor's thermal protection ensures safe and reliable operation even in the most extreme conditions.

Equipped with numerous advanced features, such as time-of-use storage for scheduled maintenance, the BM2 STX 14010 140 bar reaffirms itself as the ideal choice for professionals and enthusiasts in the field. With a maximum pressure of 140 bar and a maximum flow rate of 600 Lt./h, the BM2 STX 14010 can tackle any cleaning challenge with ease and precision. With a 35-liter tank capacity and a length of 956 mm, this machine offers high performance in a compact and versatile design.

In conclusion, the BM2 STX 14010 High Pressure Washer represents the perfect combination

of high performance, reliability, and ease of use, confirming itself as the ideal partner for any professional or domestic cleaning task.

Technical Features BM2 STX 14010:

Phase type: Single-phase
Supply voltage: 230 V
Frequency: 50 Hz
Maximum pressure: 140 bar - 14 Mpa - 2030 psi
Maximum flow rate: 600 Lt./h
Pump: IP E2
Shutoff System: ACDS
Pump rotation: 1450 rpm
Maximum power consumption: 3.0 KW
Power supply: 230 V - 1ph - 50 Hz
Maximum temperature: 140 °C
Tank capacity: 35 lt
Detergent tank capacity: 3 lt
Length: 956 mm.
Width: 610 mm.
Height: 940 mm.
Weight: 140 kg.

Technical Sheet

Phase	Single phase
Fuel	Diesel
Frequency (Hz)	50
Voltage (V)	230
Pump type	IP E2
Maximum output capacity (Lt/min)	600
Tank capacity (L)	35
Transportability	Wheels and handles
Length (mm)	956
Width (mm)	610
Height (mm)	940
Dry weight (Kg)	140
Feed Type	230V - 1ph - 50Hz

maximum water temperature (°C)	140
Maximum input power (KW)	3.0
Pump rotation (rpm)	1450
Maximum pressure (bar-MPa-psi)	140 - 14 - 2030
Stop system	ACDS
Detergent tank	3
