

BM2 MIDIA 20015 TSD High Pressure Cleaner 200 bar

Reference: 01MI30

BM2 MIDIA 20015 TSD HIGH PRESSURE CLEANER 200 BAR

The BM2 MIDIA 20015 TSD High Pressure Washer with 200 bar is a high-pressure cleaning solution designed to meet the highest demands in professional settings. With a maximum pressure of 200 bar and a maximum flow rate of 900 liters per hour, the BM2 MIDIA 20015 TSD guarantees excellent performance in every cleaning situation.

One of the main features of the BM2 MIDIA 20015 TSD is its pump system with a brass head and piston rods, ensuring long-lasting durability and optimal corrosion resistance. This robust design is ideal for intensive and prolonged use, guaranteeing reliability and consistent performance.

The high-efficiency motor of the BM2 MIDIA 20015 TSD, with a rotation of 1450 rpm, ensures quiet and efficient operation. The shaft coupling protection system (SJ) protects the internal components from wear and damage, increasing the machine's longevity.

The BM2 MIDIA 20015 TSD High Pressure Washer with 200 bar is equipped with a low-pressure detergent dispensing system, controllable directly from the washing head. This allows for precise and targeted detergent application, optimizing cleaning effectiveness. Additionally, the washing jet angle is adjustable, allowing the water flow to be adapted to specific cleaning needs.

The AISI 430 cover protects the internal components of the BM2 MIDIA 20015 TSD and contributes to a durable and long-lasting design. The non-marking wheels facilitate the movement of the device without leaving marks on the floor, while the inspectable water filter simplifies maintenance, ensuring optimal operation over time.

From a technical perspective, the BM2 MIDIA 20015 TSD Pressure Washer with 200 bar is a three-phase model with a frequency of 50 Hz and a voltage of 400 V. With a maximum power consumption of 5.5 KW, the detergent tank has a capacity of 5 liters, and the maximum input temperature is 40 °C. The compact dimensions, with a length of 810 mm, a width of 380 mm, and a height of 870 mm, along with a weight of 50 kg, make this pressure washer easy to handle and transport.

In conclusion, the BM2 MIDIA 20015 TSD Pressure Washer with 200 bar is an extraordinary machine that combines power, efficiency, and durability. It is the ideal choice for professionals seeking a high-quality high-pressure cleaning solution capable of tackling the most challenging tasks with ease and reliability.

Technical Specifications BM2 MIDIA 20015 TSD:

Phase type: Three-phase
Frequency: 50 Hz

Voltage: 400 V
Maximum pressure: 200 bar - 20 Mpa - 2900 psi
Maximum flow rate: 900 Lt./h
Pump: IP E1
Stop system: TSD
Pump speed: 1450 rpm
Maximum absorbed power: 5.5 KW
Supply voltage: 400 V - 3ph - 50Hz
Cleaning agent tank: 5 lt
Maximum inlet temp: 40 °C
Pallet quantities: 16 pcs
Length: 810 mm.
Width: 380 mm.
Height: 870 mm.
Weight: 50 Kg.

Technical Sheet

Phase	Three phase
Frequency (Hz)	50
Voltage (V)	400
Pump type	IP E1
Maximum output capacity (Lt/min)	900
Transportability	Wheels and handles
Length (mm)	810
Width (mm)	380
Height (mm)	870
Feed Type	400V - 3ph - 50Hz
maximum water temperature (°C)	40
Weight (Kg)	50
Maximum input power (KW)	5.5
Pump rotation (rpm)	1450
Maximum pressure (bar-MPa-psi)	200 - 20 - 2900
Stop system	TSD
Detergent tank	5
