Osmosea OsmoDock System 75 Water Treatment System 700LT

Osmosea OsmoDock System 75: Abundant Pure Water for Your Yacht

The Osmosea OsmoDock System 75 is a dock water treatment system designed to provide pure, salt-free water for your large yacht. Using reverse osmosis technology, this system removes up to 98% of the salts in sea or lake water, producing fresh water ideal for:

Osmosea Washing your yacht without residual halos: Salt water can leave stains and limescale deposits on the hull and yacht surfaces. The pure water produced by the Osmosea OsmoDock System 75 guarantees a flawless, streak-free wash, preserving the beauty of your yacht.

Osmosea Protect installations that use fresh water from fouling. Salt water can damage engines, pipes and other yacht components that use fresh water. The Osmosea OsmoDock System 75 provides pure, salt-free water, preventing the formation of fouling and ensuring the proper functioning of systems.

In addition to these main benefits, the Osmosea OsmoDock System 75 offers:

Osmosea High output: Up to 700 litres of pure water per day, enough to meet the needs of large yachts.

Osmosea High efficiency: Reverse osmosis technology removes salts efficiently, ensuring low energy consumption.

Osmosea Robustness and Reliability: Built with high-quality materials, the Osmosea OsmoDock System 75 is a robust and reliable system that guarantees years of trouble-free use. Protect the biggest investment of your life: Preserve the beauty and value of your yacht with Osmosea pure water.

Protect your plants and your yacht with the Osmosea OsmoDock System 30. The fresh water produced is ideal for irrigation and prevents limescale build-up. From saltiness to crystal-clear water: a transformation process that makes all the difference.

Technical Specifications Osmosea OsmoDock System 75 treatment system:

Voltage: 230/400 VAC
Power consumption: 750 W
Lit/h: 700 liters a day
Lit/day: 16800
Gal/day: 4438.6
Weight: 70 Kg
length: 1265 mm
height: 360 mm

width: 400 mm
