

Mosa GT15 PTO Generator 1500rpm 15kVA AVR

Reference: SGT15

Mosa GT15 PTO Generator 1500rpm 15kVA AVR

The **Mosa GT15 PTO Generator 1500rpm 15kVA AVR** is a current generator designed to be powered by the power take-off (PTO) of a tractor, ideal for agricultural applications and in places where an electrical grid is not available. This generator offers an apparent power of 15 kVA (kilovolt-amperes) and an active power of 12 kW (kilowatts), making it suitable for powering a wide range of electrical equipment, including agricultural machinery, tools, and lighting.

The heart of the **Mosa GT15 PTO Generator 1500rpm 15kVA AVR** is the AVR (Automatic Voltage Regulator) voltage regulator, which ensures a stable and constant voltage, protecting connected equipment from voltage fluctuations. The generator is designed to operate at 1500 revolutions per minute, a common speed for tractor PTOs, and requires a tractor with a minimum power of 50 HP for optimal operation.

Technical Features **Mosa GT15 PTO Generator 1500rpm**:

Electrical Power PRP [kVA]: 15
Electrical Power PRP [kW]: 12
General switch size A: 20
Voltage regulator: AVR
Engine speed (rpm): 430
Tractor HP: 50
Weight (Kg): 200
Height (mm): 1027

Length (mm): 1148

Width (mm): 960

Technical Sheet

Engine rpm (rpm)	430
Length (mm)	1148

Width (mm)	960
Height (mm)	1027
Voltage regulator	AVR
Weight (Kg)	200
PRP Electrical Power [kVA]	15
PRP Electrical Power [kW]	12
General switch cut-out A	20
HP trattore	50
