

## Mosa GT25 PTO Generator 1500rpm 25kVA AVR

Reference: SGT25

### Mosa GT25 PTO Generator 1500rpm 25kVA AVR

The **Mosa GT25 PTO Generator 1500rpm 25kVA AVR** is a current generator designed to be powered by the power take-off (PTO) of a tractor, ideal for agricultural applications and in places where an electrical grid is not available. This generator offers an apparent power of 25 kVA (kilovolt-amperes) and an active power of 20 kW (kilowatts), making it suitable for powering a wide range of electrical equipment, including agricultural machinery, tools, and lighting.

The heart of the **Mosa GT25 PTO Generator 1500rpm 25kVA AVR** is the AVR (Automatic Voltage Regulator) voltage regulator, which ensures a stable and constant voltage, protecting connected equipment from voltage fluctuations. The generator is designed to operate at 1500 revolutions per minute, a common speed for tractor PTOs, and requires a tractor with a minimum power of 70 HP for optimal operation.

#### Technical Features Mosa GT25 PTO Generator:

Electrical Power PRP [kVA]: 25

Electrical Power PRP [kW]: 20

General switch size A: 32

Voltage regulator: AVR

Engine speed (rpm): 430

Tractor HP: 70

Weight (Kg): 250

Height (mm): 1027

Length (mm): 1148

Width (mm): 960

## Technical Sheet

|                            |      |
|----------------------------|------|
| Engine rpm (rpm)           | 430  |
| Length (mm)                | 1148 |
| Width (mm)                 | 960  |
| Height (mm)                | 1027 |
| Voltage regulator          | AVR  |
| Weight (Kg)                | 250  |
| PRP Electrical Power [kVA] | 25   |
| PRP Electrical Power [kW]  | 20   |
| General switch cut-out A   | 32   |
| HP trattore                | 70   |
