HYUNDAI Petrol Tracked Power Barrow Max 750KG

The HYUNDAI Petrol Tracked Power Barrow Max 750KG is a professional machine designed for transporting heavy and bulky materials in the agricultural, construction, and forestry sectors. Thanks to its compact and robust structure, it guarantees maximum efficiency and safety even on uneven terrain and in demanding working conditions.

It is equipped with a 7.0 HP, 212 cc, 4-stroke petrol engine, which ensures constant power and reliability over time. Starting is via a simple and immediate recoil system. The transmission features 3 forward gears + 1 reverse, allowing you to adapt the speed to different operational needs and maneuver easily even in tight spaces.

The machine measures 203.5 x 89.5 x 119 cm and has a dry weight of 270 kg, making it stable and balanced during loading and unloading. The body is made of enameled steel, a resistant and durable material, capable of withstanding intense stress without compromising the vehicle's reliability.

The loading bed is equipped with a hydraulic tipping system with a maximum angle of 60°, designed to facilitate and speed up material unloading. The load capacity on flat surfaces reaches 750 kg, while the ability to climb up to 25° allows for safe operation even on steep slopes.

Thanks to the combination of power, robustness and practicality, the HYUNDAI Max 750KG Petrol Tracked Power Barrow is the ideal choice for those looking for an efficient and professional vehicle, capable of reducing working times and improving productivity in any operating context.

Technical Features:

Fuel: Petrol
Engine: 4-stroke - 7.0 Hp
Displacement: 212 cc
Starter: Recoil
Gear: 3 forward + 1 reverse
Product dimensions (cm): 203.5 x 89.5 x 119
Dry weight (kg): 270
Load capacity on flat surfaces (Kg): 750
Tipping system: Hydraulic
Tipping angle: 60°
Climbing capacity: 25°
Body material: Enamelled steel

Looking for a tracked wheelbarrow with different technical features? [HERE](#) you can find the entire range of HYUNDAI and other

specialized brands.

Technical Sheet

Fuel	Gasoline
Engine	4 T - 7,0 Hp
Starting system	Pull starter
Dry weight (Kg)	270
Capacità di carico in piano (Kg)	750
displacement	212 cc
Product Dimensions (cm)	203,5 x 89,5 x 119
tipping system	Hydraulic
Climbing ability	25°
Tipping angle	60°
Marches	3 forward + 1 reverse
Shell Material	Enamelled steel
