

DazeBox T Home Charging Station for Electric Cars 32A 22.2KW

Reference: DT01IT32T5

DazeBox T Home Electric Vehicle Charging Station 32A 22.2KW

Dazebox Home is the advanced solution for home and shared residential charging. It offers enhanced connectivity, an RFID reader, Load Balancing for up to 8 chargers, and advanced energy-saving features. This makes it the most comprehensive home charger on the market.

All clear at first glance

The power and energy delivered are easily readable on the large screen, allowing a quick understanding of the charging status.

Extended energy-saving features

Dazebox Home features advanced energy-saving capabilities, including a "solar-only" mode and scheduling for low-cost energy time slots, and is compatible with all photovoltaic systems.

One and done installation

The Dazebox Home incorporates a release coil. This integration enables a quicker and more cost-effective installation.

Technical Sheet

Phase	Three phase
Nominal current (A)	32
Charging socket	mode 3
IP Protection	IP56
Operating temperature	Da -30° C / +55°
Maximum power consumption	22,2 kW
Connection points	8
Dimensions (without cable)	277 x 335 x 102 mm
Protezione IK	IK10
