

VITRIFRIGO Icemaker, IM CL INT OCX2 HYDRO Ice maker

Reference: 1100-0027

VITRIFRIGO Icemaker, IM CL INT OCX2 HYDRO Ice Maker

Made of AISI316 stainless steel with materials selected for maximum corrosion resistance, this ice maker is ideal for marine environments and heavy-duty applications. Thanks to the internal refrigeration unit and the R134a gas compressor, it can produce up to **8kg of ice in 24 hours**, ensuring constant performance even under heavy use.

The compact dimensions (433mm×416mm×702mm) and dry weight of 23kg allow for easy installation in both the DoorOutside (partial built-in) and DoorInside (fully built-in) configurations, thanks to the unique stainless steel fixing profile with slots that promote air circulation. The positive snap-close door prevents accidental opening, while the "Vent Position" system integrated into the handle allows the door to be kept slightly ajar during periods of inactivity, preventing mold and unpleasant odors.

Technical Features:

Length: 433mm
Width: 416mm
Height: 702mm
Dry weight: 23kg
Power supply: 230V (230Vac)
Product type: Ice maker
Ice production: 8kg/24h
Total capacity: 24liters
Reversible door: yes
Thermostat: Digital, waterproof LED
Refrigeration technology: Compressor with internal motor unit
Refrigerant gas: R134a
Frequency: 50/60Hz
Type: ICEMAKER

Technical Sheet

Length (mm)	433
Width (mm)	416
Height (mm)	702

Dry weight (Kg)	23
Feed Type	230 V
Product type	Ice maker
Ice production (Kg/24h)	8
Total capacity liters	24
Reversible door	Yes
Thermostat	Digital
engine unit	internal
Refrigeration technology	Compressor
