

## DOMETIC SinePower DPSI 2024

Reference: 9620017424

### DOMETIC SinePower DPSI 2024

The DOMETIC SinePower DPSI 2024 is a pure sine wave inverter designed to convert 24 V battery voltage into pure 230 V AC. The DOMETIC SinePower DPSI 2024 inverter ensures reliable operation of electrical devices up to 2000 W from the vehicle battery. Integrated protection circuits prevent damage from overload, overheating, overvoltage, and undervoltage. Automatic standby saves energy.

#### New user interface

DOMETIC SinePower DPSI 2024 inverter with attractive design, ease of use and control.

Espresso machines, toasters, and hair dryers require a reliable and powerful power supply. With a power output of 2000 W, this pure sine wave inverter is designed to handle even the most demanding loads effortlessly.

Compact and featuring a low-profile design, it takes up minimal space on board. It can be operated easily and intuitively via the central display, the Dometic app, or the control panel included in the package. The inverter converts the power from a 24 V battery into a pure 230 V output voltage, equivalent to that of a standard household socket.

#### Technical characteristics of the DOMETIC SINEPOWER DSP2024 inverter:

Input voltage: 24 V  
Output voltage: 230 V  
Wave type: pure sine wave  
Output frequency: 50 Hz  
Continuous power: 2000 W  
Length: 411 mm  
Width: 255 mm  
Height: 87 mm  
Dry weight: 4.9 kg

Other inverters such as the DOMETIC SINEPOWER DSP2024 can be found in our catalogue.

### Technical Sheet

Frequency (Hz)	50
Voltage (V)	230
Length (mm)	411
Width (mm)	255

---

Height (mm)	87
Input voltage (V)	24
Kind of wave	Pure Sinusoidal
Continuous power (W)	2000
Product type	Inverter
Weight (Kg)	4.9

---
