Reefilla VOLTAB GO Power Station Portable Electric Generator 3.7kW

VOLTAB Battery-Powered Electric Generator 3.7kW is a compact and practical generator, designed to offer reliable energy in a portable format.

With a capacity of 3.1 kWh and an output power of 3.7 kW, it is suitable for various applications where autonomy and high performance are required.

The generator operates in single-phase at 230V AC 50 Hz and has a socket configuration consisting of 1 Schuko and 1 CEE 16A, thus ensuring good versatility of use. The maximum power consumption is 2 kW at 230 V, while the charging time is 1.55 hours, a feature that makes it very quick to return to service.

The dimensions of 865 x 268 x 990 mm make it easy to place, while the weight of 19.5 kg makes it easy to handle. In summary, it is an efficient, compact and easy-to-use solution for those looking for a battery-powered electric generator with an excellent balance between power, autonomy and practicality.

Technical Features:

Capacity: 3.1 kWh

Output power: 3.7 kW

Socket configuration: 1 x Schuko + 1 x CEE 16A

Voltage: AC 230V 50 Hz

Dimensions: 865 x 268 x 990 mm

Weight: 19.5 kg

Charging time: 1.55 h

Maximum absorbed power: 2 kW (230 V)

Phase type: Single phase

Technical Sheet

Phase	Single phase
Sockets configuration	1 x Schuko + 1 x CEE 16A
Weight (Kg)	19.5
Voltaggio	AC 230V 50 Hz
Charging time [h]	1.55

Power output	3,7 kW
Dimensions [mm]	865x268x990
Maximum power consumption	2 kw (230 V)
capacity	3,1 kWh
