

FRIMED RB12 smartLINE Medical Refrigerator 126LT

Reference: RB12

FRIMED RB12 smartLINE Medical Refrigerator

The **RB12 medical refrigerator** from the FRIMED smartLINE line is designed for the controlled storage of pharmaceuticals, vaccines, and laboratory samples.

126-liter capacity, adjustable temperature from +2°C to +12°C in 0.1°C increments via an electronic microprocessor controller. Internal and external structure in hot-dip galvanized steel covered in corrosion-resistant white PVC, low GWP polyurethane insulation.

Solid door with easily replaceable foldable magnetic gasket.

Integrated Bluetooth connectivity as standard for downloading data directly to a smartphone or tablet via the dedicated APPLICA app.

Acoustic and visual alarms for high/low temperature, open door, and sensor failure;

Data logger with alarm history for up to 4 months. Ecological refrigerant R290 with low environmental impact (Low-GWP), automatic draining with condensation evaporation. External dimensions 600x600x860 mm, packaging dimensions 700x700x1030 mm. Made in Italy.

Technical characteristics:

Frequenza (Hz): 50/60 Hz

Litraggio interno frigorifero (L): 126lt

Materiale: Acciaio zincato PVC-coated

Pressione acustica: 45 dBA

Alimentazione: 230 V

Colore: Bianco

Refrigerante: R290

Temperatura [°C]: -2% / +12%

Connettività Bluetooth: sì

Sistema raffreddamento: evaporatore statico ventilato

Tipo di Porta: Porta piena

Dimensioni esterne 600x600x860 mm

dimensioni imballo: 700x700x1030 mm

Technical Sheet

Frequency (Hz)	50/60 Hz
Capacity of the refrigerator (L)	126lt
Product dimensions (mm)	600x600x860
Package dimensions (mm)	700x700x1030
Material	Acciaio zincato PVC-coated
Acoustic pressure	45 dBA
Feed Type	230 V
Colour	Bianco
Coolant	R290
Temperature [°C]	-2% / +12%
Bluetooth connectivity	si
Cooling system	evaporatore statico ventilato
Tipo di Porta	Porta piena
