

FRIMED RB15 smartLINE Medical Refrigerator 150LT

Reference: RB15

FRIMED RB15 smartLINE Medical Refrigerator 150LT

The RB15 medical refrigerator from the FRIMED smartLINE line is designed for the controlled storage of pharmaceuticals, vaccines, and laboratory samples.

Capacity and Temperature

Capacity: 150 liters

Adjustable temperature: from +2°C to +12°C, in 0.1°C increments via an electronic microprocessor controller.

Construction and Materials

Internal and external structure: hot-dip galvanized steel, coated in white, corrosion-resistant PVC.

Insulation: low GWP polyurethane.

Door: solid, with easily replaceable foldable magnetic gasket.

Connectivity and Safety

This medical refrigerator comes standard with Bluetooth connectivity for downloading data directly to your smartphone or tablet using the dedicated app. APPLY.

Audible and visual alarms: high/low temperature, door open, sensor failure

Refrigeration system

Made in Italy.

The RB15 medical refrigerator uses the environmentally friendly R290 refrigerant, with low environmental impact (Low-GWP), with automatic draining and condensation evaporation.

Technical Features:

Frequency (Hz): 50/60 Hz

Material: PVC-coated galvanized steel

Power supply: 230 V

Internal refrigerator capacity (L): 150 lt

Sound pressure: not specified

Refrigerant: R290

Color: White

Temperature [°C]: -2 / +12

Bluetooth connectivity: Yes

Cooling system: Ventilated static evaporator

Door type: not specified

Made in Italy

Product dimensions: 600x600x1290 mm

Packaging dimensions: 700x700x1570 mm

Technical Sheet

Frequency (Hz)	50/60 Hz
Capacity of the refrigerator (L)	150lt Pressione acustica
Product dimensions (mm)	600x600x1290
Package dimensions (mm)	700x700x1570
Material	Acciaio zincato PVC-coated
Feed Type	230 V
Colour	Bianco
Coolant	R290
Temperature [°C]	-2% / +12%
Bluetooth connectivity	si
Cooling system	evaporatore statico ventilato
Tipo di Porta	Porta piena
