

FRIMED RB20 smartLINE Medical Refrigerator 200LT

Reference: RB20

FRIMED RB20 smartLINE Medical Refrigerator 200LT

The RB20 medical refrigerator from the FRIMED smartLINE line is designed for the controlled storage of pharmaceuticals, vaccines, and laboratory samples.

200-liter capacity, adjustable temperature from +2°C to +12°C in 0.1°C increments via an electronic microprocessor controller. Internal and external structure in hot-dip galvanized steel covered in corrosion-resistant white PVC, low GWP polyurethane insulation.

Solid door with easily replaceable foldable magnetic gasket. Integrated Bluetooth connectivity as standard for downloading data directly to a smartphone or tablet via the dedicated APPLICA app.

Acoustic and visual alarms for high/low temperature, open door, and faulty sensor; data logger with alarm history for up to 4 months.

Eco-friendly R290 refrigerant with low environmental impact (Low-GWP), automatic draining with condensation evaporation. External dimensions 600x600x1490 mm, packaging dimensions 700x700x1770 mm. Made in Italy.

Technical Features:

Frequency: 50/60 Hz

Sound pressure: 45 dBA

Material: PVC-coated galvanized steel

Power supply: 230 V

Internal refrigerator capacity: 200 lt

Refrigerant: R290

Color: white

Temperature: -2°C / +12°C

Bluetooth connectivity: yes

Cooling system: ventilated static evaporator

Door type: solid door

External dimensions: 600x600x1490 mm

Packaging dimensions: 700x700x1770 mm

Technical Sheet

Frequency (Hz)	50/60 Hz
Capacity of the refrigerator (L)	200lt
Product dimensions (mm)	600x600x1490
Package dimensions (mm)	700x700x1770

Material	Acciaio zincato PVC-coated
Acoustic pressure	45 dBA
Feed Type	230 V
Colour	Bianco
Coolant	R290
Temperature [°C]	-2% / +12%
Bluetooth connectivity	si
Cooling system	evaporatore statico ventilato
Tipo di Porta	Porta piena
