

FRIMED RB30 smartLINE Medical Refrigerator 300LT

Reference: RB30

FRIMED RB30 smartLINE Medical Refrigerator 300LT

The RB30 medical refrigerator from the FRIMED smartLINE line is designed for the controlled storage of pharmaceuticals, vaccines, and laboratory samples. 300-liter capacity, adjustable temperature from +2°C to +12°C in 0.1°C increments via an electronic microprocessor controller.

Internal and external structure in hot-dip galvanized steel covered in corrosion-resistant white PVC, low GWP polyurethane insulation. Solid door with easily replaceable foldable magnetic gasket.

Integrated Bluetooth connectivity as standard for downloading data directly to a smartphone or tablet via the dedicated APPLICA app. Audible and visual alarms for high/low temperature, open door, and sensor failure;

Data logger with alarm history for up to 4 months. Ecological refrigerant R290 with low environmental impact (Low-GWP), automatic draining with condensation evaporation. External dimensions 600x600x1890 mm, packaging dimensions 700x700x2170 mm. Made in Italy.

Technical Features:

Frequency: 50/60 Hz
Sound pressure: 45 dBA
Material: PVC-coated galvanized steel
Power supply: 230 V
Internal refrigerator capacity: 300 liters
Refrigerant: R290
Color: white
Temperature: -2°C / +12°C
Bluetooth connectivity: yes
Cooling system: ventilated static evaporator
Door type: solid door

Technical Sheet

Frequency (Hz)	50/60 Hz
Capacity of the refrigerator (L)	300lt
Material	Acciaio zincato PVC-coated
Acoustic pressure	45 dBA

Feed Type	230 V
Colour	Bianco
Coolant	R290
Temperature [°C]	-2% / +12%
Bluetooth connectivity	si
Cooling system	evaporatore statico ventilato
Tipo di Porta	Porta piena
