

FASTVERDINI ELECTRIC MIIDUMPER IT500E Without Shovel Self-Loading 500KG

Reference: PFMDIT500

FASTVERDINI IT500E ELECTRIC MIIDUMPER Without Self-Loading Shovel 500KG

The **FASTVERDINI IT500E ELECTRIC MIIDUMPER Without Self-Loading Shovel 500kg** is an electric-powered tracked mini-dumper, designed for transporting and tipping materials on construction sites, in gardens, or in agricultural settings. Thanks to the electric motor and hydrostatic transmission, it guarantees smooth and silent movements, ideal for working in confined spaces or in areas where emissions must be minimal.

Technical characteristics:

Engine: Electric
Displacement: 200 cc
Power: 4.1 kW
Transmission: Hydrostatic
Safety system: Overcenter valve
Hydraulic oil tank: 14 l
Body volume: 0.21 m³
Tipping: Hydraulic
Speed: 2.5 km/h
Tracks: 180 x 60 x 38
Capacity on flat surfaces: 500 kg
Capacity on inclined surfaces: 350 kg
Maximum gradient: 30%
Length (mm): 1750
Width (mm): 783
Height (mm): 1123
Dry weight (kg): 395 kg

Technical Sheet

Engine	Electric
Oil capacity (L)	14

Speed (Km/h)	2.5
Transmission	Hydrostatics
Capacità di carico in piano (Kg)	500
Safety standards	Overcenter valve
Net weight kg	395
Track Dimensions	180 x 60 x 38
displacement	200
tipping system	Hydraulic
Body volume	0.21 mc
