

GH POWER P2000iS Silenced Portable Inverter Generator 2kW

Reference: P2000iS

GH POWER P2000iS Silenced Portable Inverter Generator 2kW

Tackle any power challenge with the P2000iS inverter generator, designed to deliver steady, quiet power wherever you need it. It is the ideal solution for those who refuse to compromise between performance and portability. Choose reliable power from Manelservice.

Key Features

Inverter technology providing clean, safe power for sensitive electronic devices.

Ultra-quiet design, ideal for camping, boating, and residential areas.

High-efficiency engine with low fuel consumption and long runtime.

Compact, lightweight structure for easy transport in any situation.

Automatic overload protection and low-oil sensor.

Intuitive control panel with LED indicators for real-time monitoring.

Detailed Description

The P2000iS generator represents excellence in mobile power solutions, combining reliable rated power output with the precision of inverter technology. This makes it perfect for powering laptops, smartphones, and sensitive equipment without the risk of voltage spikes. Thanks to its soundproofed housing, it operates at minimal noise levels, ensuring a quiet environment. Intelligent engine management adjusts RPM based on the required load, optimizing fuel consumption and reducing emissions. Built with high-quality materials and durable components, the P2000iS is designed to last, even under heavy use. Maintenance is simplified thanks to quick access to key technical compartments.

Safety and convenience are at the heart of the Manelservice design. The unit features advanced protection systems that shut down the engine in the event of a malfunction, safeguarding the machine's integrity. Whether for a home emergency, an RV trip, or work in remote locations, this generator is the tireless partner for your energy independence.

Use Cases

- Perfect for leisure activities in RVs or on boats, thanks to its quiet operation.
- Ideal for professionals working on job sites with lightweight power tools.
- Excellent as a home backup to keep small appliances and lights running.
- Essential for outdoor events requiring stable, unobtrusive power.

FAQ

The P2000iS runs on unleaded gasoline and 4-stroke engine oil. Its integrated inverter technology ensures superior voltage

stability compared to traditional generators. This model is ideal for those seeking the perfect balance between low weight and power output. Order now to ensure reliable, continuous operation with Manelservice.

Technical Sheet

Engine	R80i
Fuel	Gasoline
Frequency (Hz)	50
Voltage (V)	230
Starting system	Pull starter
Engine capacity (cm ³)	79.7
Bore x stroke (mm)	48,6 × 43
Tank capacity (L)	4
Product dimensions (mm)	560 × 345 × 525
Running time (h)	at 50% load: 6 hours
Inverter	Yes
Weight (Kg)	22
Nominal Power Kw	1.8
Noise level at 7 m	57 dB a
Motor type	Single-cylinder, 4-stroke, OHV, forced air-cooled
Maximum power (KW)	2
