VITRIFRIGO SLIM150 CHR 150L Fridge-Freezer

The **VITRIFRIGO SLIM150 CHR 150L Fridge-Freezer** is a built-in compressor refrigerator designed for motorhomes, boats, and recreational vehicles; it is ideal for those seeking high internal capacity within a compact footprint and an efficient technical solution for mobile use.

With a **total capacity of 150 liters** and a **16-liter freezer compartment**, the **VITRIFRIGO SLIM150 CHR 150L Fridge-Freezer** offers ample space to store fresh and frozen food during long trips and extended stays away from home, while ensuring the proper temperatures for effective freezing.

The **VITRIFRIGO SLIM150 CHR 150L Fridge-Freezer** operates on **12/24 V DC** power, making it fully compatible with the electrical systems of motorhomes and boats.

The **nominal power draw of 37 W** and the **daily energy consumption of 680 Wh/24 h** make it suitable for efficient use even when operating off-grid, minimizing the impact on onboard batteries.

Technical Specifications:

Total capacity (L): 150
Freezer capacity (L): 16
Net weight (kg): 30
Power supply: 12/24V DC
Nominal consumption: 37W
Total width (mm): 417
Total height (mm): 1513
Total depth (mm): 444
Panel color: Black/Grey
Reversible door: Yes
Daily energy consumption: 680 Wh/24 h
Refrigerant: R290
Thermostat: LED
Front panel: Black/Grey
